*"The Clearing"* JEANNETTE MACDOUGALL

**EXHIBITION DATES MAY 30 - JULY 14**

**OPENING RECEPTION SAT. JUNE 8 | 3-6 PM**

Working with beeswax is a sensual experience combining fragrance, translucence, embedding and scraping away, "burning in" the layers of wax and pigment and object. It is this process of melting wax that requires heat and fire, that transforms material into ethereal. It is an offering up of reverence for our co-creators the honey bees, and of appreciation for the acts of creation and transformation that are these encaustic paintings.
